- The Thru-Hole ratchet can use an 3/8" or 1/2" adapter to accommodate any standard socket.
- The Thru-Hole ratchet's slim, lightweight design makes the impossible possible, By virtually eliminating the need for deep sockets, mechanics can now accomplish 100% of the work with 1/3 of the sockets.
- The Thru-Hole ratchet is the only ratchet which can use all sockets up to a SAE 7/8" (19mm).
- Thru-Hole ratchet eliminates deep sockets.
- Only double pawl positive Lock System that eliminates head slippage.
- Combo Air Ratchet with 3/8" & 1/2" drive.
- Short stroke ratcheting action for confined areas.
- More than just a gear head: pawl and gear tooth angles proved highest efficiency torque transfer in the industry.
- Bolts and studs pass right through the head of the ratchet making this revolutionary wrench unique.
- Rear exhaust for safety.
- Head and socket assembly is 30% smaller than conventional air ratchets and sockets. The profile is 40% smaller - good for small places.
- 85 ft/lbs. Bolt busting torque.
- One hand operation on forward/reverse and socket release.
- Fully captured socket retention system provides greater speed and reduces head slippage - increases durability.
- Precision engineered throughout.
- Rubber grip for superior comfort.

3 Air Ratchets in 1

3/8" & 1/2" adapters included to use with your existing 3/8" & 1/2" sockets.

Thru-Hole Power Drive System

www.krcracing.com

"Our Quality Is On The Line"

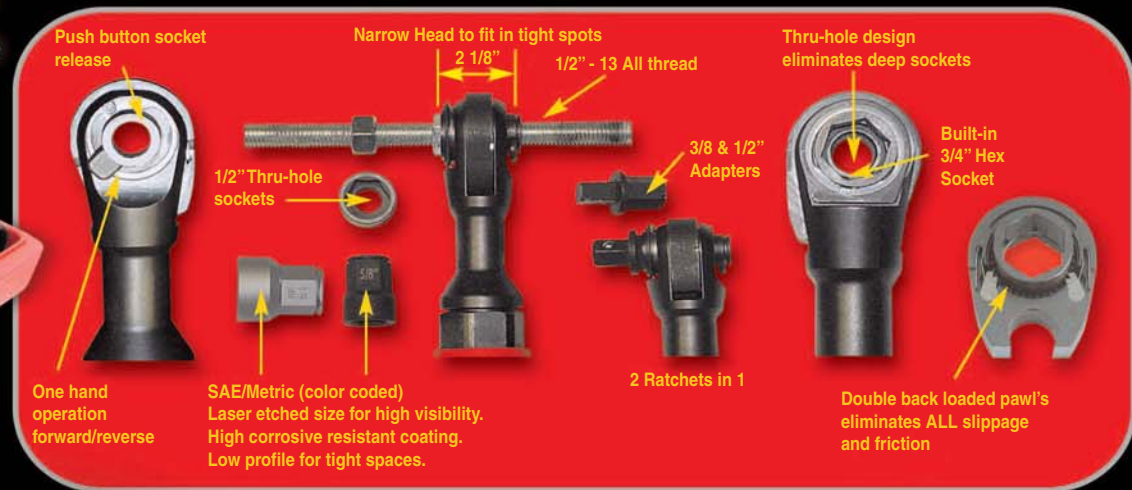

Set includes:

- 1 - Cyclone Socket Pneumatic Power Drive Wrench
- 11 - Thru Hole SAE Impact Socket Set (5/16" - 7/8")
- 12 - Thru Hole Metric Impact Socket Set (8mm - 19mm)
- 2 - 3" Thru hole extensions

- 1 - 3/8" Conventional Socket Adapter (non thru hole)
- 1 - 1/2" Conventional Socket Adapter (non thru hole)
- 1 - Organized Blow Case w/pocket ISO 9001/2000 w/design

29 piece Professional Set

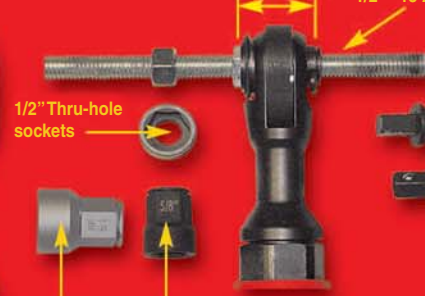

Push button socket release

One hand operation forward/reverse

Narrow Head to fit in tight spots

2 1/8" 1/2" - 13 All thread

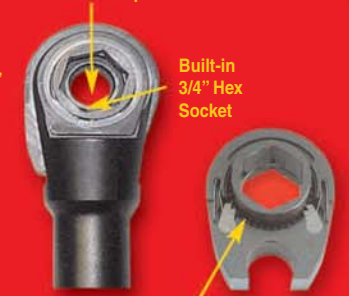

1/2" Thru-hole sockets

SAE/Metric (color coded) Laser etched size for high visibility. High corrosive resistant coating. Low profile for tight spaces.

3/8 & 1/2" Adapters

2 Ratchets in 1

Thru-hole design eliminates deep sockets

Built-in 3/4" Hex Socket

Double back loaded pawl's eliminates ALL slippage and friction

Patents: 5,450,773; 5,738,192; 5,448,930; 5,674,252 with additional Patents Pending

- Thru-hole design, eliminates deep sockets
- Double back loaded pawls, eliminates all slippage
- One hand operation, forward/reverse
- Push button socket release
- Combo air ratchet with 3/8" and 1/2" drive
- 3/8" and 1/2" adapters
- Lowest head profile in the market today
- Short stroke ratcheting action for confined areas
- Rear exhaust for safety
- Short profile for tight spaces
- Corrosive-resistant impact sockets
- Laser-etched markings for high visibility
- Rubber grip for superior support

3 Air Ratchets in 1 No More Deep Sockets

Lifetime Warranty on Sockets, 1 year warranty on Ratchet

Patented, Designed, Engineered & Assembled in U.S.A. International Patents Pending Manufactured in Taiwan for KRC Quality Standard to ISO 9001/2000
